

## Tri-Vascular Screenings | \$69

Vascular Disease is a serious condition which affects the circulation of blood flow within the arteries and veins. If not treated, vascular disease can lead to serious health issues such as amputation, stroke, aneurysm, or even death.

### The Vascular Screening options include:

- **Stroke screening (carotid artery ultrasound)**  
Screens for possible narrowing and blockages of the carotid arteries, the main arteries in the neck that supply blood to the brain. - \$23
- **Abdominal Aortic Aneurysm screening (AAA ultrasound)**  
Screens for an aneurysm, a bulge or weakness in the aorta, the major blood vessel in the abdomen. - \$23
- **Peripheral Artery Disease screening (PAD)**  
Screens for blockages and plaque buildup in the legs, which is linked to cardiovascular disease. Deposits of plaque in the large arteries of the legs can block the blood supply to the legs, resulting in pain with walking (claudication). - \$23

Schedule your vascular  
screenings today by calling  
812-885-3243.

---

# Cardiovascular disease is the leading cause of death for men and women.

Good Samaritan can help you understand your risk, which is the first step toward prevention. Our team of cardiologists, radiologists and technologists are highly-trained to analyze your tests and help you understand your risk.

Our vascular screenings are offered the second Thursday of each month.

For more information or to schedule a screening, please call 812-885-3243.

## Frequently Asked Questions

### Q: Should you get a vascular screening?

A: If you are 50 or older with one or more of the following risk factors, you may be at risk for vascular disease:

- Current or former smoker
- Diabetes
- Family history of stroke, aneurysm or circulation disorders
- High total cholesterol or low HDL (<40mg/dL)
- High blood pressure
- Leg muscle pain with walking

### Q: How long will the test(s) take?

A: All three vascular screenings will take approximately 30 minutes.

### Q: How can I pay for these tests?

A: The prices listed reflect the cash pay price and include both the test and evaluation of the results. Payment for tests is expected the day of your appointment. We accept cash, check or credit card.
